## Compliance Review

Managing your legal expenditures can be difficult without the right tools. Are you able to identify your most efficient law firms, which firms adhere to budgets, what business unit spends the most on legal fees each year, or what is your highest billing matter? With Stuart Maue's Legal Spend Management services, you will be able to harness the data from your legal invoices to make faster and more informed decisions and at the same time, have confidence that your law firms are adhering to your billing guidelines.

Stuart Maue's Legal Spend Management service is a technology and services solution that assists organizations in meeting their goals and objectives related to legal spend management. It automates and streamlines the workflow for legal bill submission, attorney review of guidelines, and payment.

Our services begin with a review of legal invoices. You have the freedom to select the type of review that fits your specific needs whether it is an attorney review or a pure e-billing solution. Either option supplies you with the data needed to get a better handle on where you are allocating your spend. Stuart Maue can also help you manage your legal spend through our analytics and reporting capability.

## The Process

Before beginning a legal spend management program, Stuart Maue will assist you in selecting an invoice review option that works best for your environment. With an attorney review, a pure e-billing solution, or a combination of both, you will have access to your invoices, budgets, matter/claim information, and advanced analytics.

Stuart Maue will begin with an in-depth review of your billing guidelines and offer suggestions and best practices. Stuart Maue attorneys and accountants will analyze invoices for fees and expenses that are not compliant with your billing guidelines. You can also review invoices online and modify or delete any of the suggestions given by Stuart Maue regarding non-compliance. With an attorney review, you are secure in knowing that an analysis of your invoices will be completed by an experienced attorney dedicated to your program. Confident in the analysis, your staff will have more time to dedicate to other duties such as managing cases and legal matters.
