

# Vendor Management Services

With companies trying to do more with fewer resources, finding the time to manage your vendors can be difficult. You have spent the time to negotiate the most favorable contract terms with your vendors, but if your contract terms aren't verified, you may not receive the full benefit of your negotiations. Overpayments, missed discounts, and incorrect pricing can (and do) occur.

## Why Stuart Maue

Stuart Maue offers you a comprehensive team of experts to review your non-legal invoices and the associated contracts or underlying purchase orders. We have a team approach to our vendor management review services consisting of attorneys, accountants, and claims professionals. By combining these disciplines, we can give you the most complete review of your contracts. Additionally, our audits are designed to meet the specific needs of each client whether it is an audit of one vendor or a program to review all vendors.

## Items commonly identified in a vendor audit:

- duplicative activities
- contract/engagement non-compliance
- duplicative payments
- overpayments
- pricing issues
- open credits
- rebates and allowances
